

Final project AI Questions:

1. What economic strata is statistically under-privileged?
2. What economic strata is statistically privileged?
3. Which type of school yields the most graduates that go on to college?
4. What is the mean, median, and mode of parental income for students who attend private schools?
5. What is the mean, median, and mode of parental income for students who attend public schools?
6. Which type of school has the most graduating students that are on a scholarship?
7. Which type of school has the most graduating students that are on a Pell Grant?
8. Which type of school receives the most grants and/or private funding?
9. Which type of schools receive the most Federal funding?
10. Which type of schools receive the most State funding?
11. Which school districts that yield the most graduating students receive the most funding (Federal or State)?
12. Which school districts that yield the most graduating students receive the least funding (Federal or State)?
13. How many students graduating from private schools are multi-lingual (polyglots)?
14. How many students graduating from public schools are multi-lingual (polyglots)?
15. Do students who are multi-lingual (polyglots) perform better or worse on standardized testing or academic performance?
16. Do students who are multi-lingual (polyglots) perform better or worse on standardized testing or academic performance in private schools?

17. Do students who are multi-lingual (polyglots) perform better or worse in standardized testing or academic performance in public schools?
18. What is the percentage of multi-lingual (polyglots) students that graduate to ivy league schools?
19. What is the percentage of multi-lingual (polyglots) students that graduate to ivy league schools that receive private funding?
20. What is the percentage of multi-lingual (polyglots) students that graduate to ivy league schools that receive Pell Grants?
21. What is the percentage of multi-lingual (polyglots) students that graduate to ivy league schools that receive Scholarships?
22. What is the mean, median, and mode of parental income for students who attend public schools that graduate to ivy league schools?
23. What is the mean, median, and mode of parental income for students who attend private schools that graduate to ivy league schools?
24. What type of school has the highest attrition (drop-out) rate?
25. Which school type that has the highest attrition rate has the most public funding?
26. Which school type that has the highest attrition rate has the most private funding?
27. Which school type that has the lowest attrition rate has the most public funding?
28. Which school type that has the lowest attrition rate has the most private funding?
29. How many multi-lingual graduate students have taken ESL in public schools?
30. How many multi-lingual graduate students have taken ESL in private schools?
