

Final project AI Questions:

1. What economic strata is statistically under-privileged?
2. What economic strata is statistically privileged?
3. Which type of school yields the most graduates?
4. What is the mean, median, and mode of parental income for students who attend private college?
5. What is the mean, median, and mode of parental income for students who attend public college?
6. Which type of college has the most graduating students that are on a scholarship?
7. Which type of college has the most graduating students that are on a Pell Grant?
8. Which type of college receives the most grants and/or private funding?
9. Which type of college receive the most Federal funding?
10. Which type of college receive the most State funding?
11. Which college that yield the most graduating students receive the most funding (Federal or State)?
12. Which college that yield the most graduating students receive the least funding (Federal or State)?
13. How many students graduating from private college are multi-lingual (polyglots)?
14. How many students graduating from public college are multi-lingual (polyglots)?
15. Do students who are multi-lingual (polyglots) perform better or worse on standardized testing or academic performance?
16. Do students who are multi-lingual (polyglots) perform better or worse on standardized testing or academic performance in private college?

17. Do students who are multi-lingual (polyglots) perform better or worse in standardized testing or academic performance in public college?
18. What is the percentage of multi-lingual (polyglots) students attend Ivy league college?
19. What is the percentage of multi-lingual (polyglots) students Ivy league college schools that receive private funding?
20. What is the percentage of multi-lingual (polyglots) students Ivy league college schools that receive Pell Grants?
21. What is the percentage of multi-lingual (polyglots) students Ivy league college schools that receive Scholarships?
22. What is the mean, median, and mode of parental income for students who attend public college that graduate to ivy league schools?
23. What is the mean, median, and mode of parental income for students who attend private college that graduate to ivy league schools?
24. What type of college has the highest attrition (drop-out) rate?
25. Which college type that has the highest attrition rate has the most public funding?
26. Which college type that has the highest attrition rate has the most private funding?
27. Which college type that has the lowest attrition rate has the most public funding?
28. Which college type that has the lowest attrition rate has the most private funding?
29. How many multi-lingual graduate students have taken ESL in public college?
30. How many multi-lingual graduate students have taken ESL in private college?
